

2025 Annual Report

Successful Programs for Gallup's Future

Downtown Gallup is an attractive and sustainable center of civic life, the arts, and cultural experiences for community activities that celebrate its multicultural heritage. It offers opportunities for prosperity with strong connections to its authentic culture and history that embraces diversity. Gallup supports a balanced mix of uses and services for people living, working, visiting and enjoying downtown. Gallup BID's successful long-running improvement programs, including the BID sign grant reimbursement program and façade improvement program, continue. BID managed outdoor events, including the monthly Arts Crawl events. In addition, Gallup BID is working with legal and financial professionals to expand the scope of its existing programs. BID will notify property and business owners within the BID District when the terms and conditions are approved and programs launched.

Downtown improvement goals include:

Promote a mix of uses in Downtown, including: retail, office, arts and entertainment, hotel accommodations, and medium-to-high density residential areas through expanded use of historic buildings, selected infill, and expansion along transition areas.

Sponsor ongoing arts projects in the downtown area, for example the artwork painted by local muralists on concrete trash receptacles and restoration of large pots decorated with Native American motifs. These artworks attract visitors.

Continue to encourage, and work with, City of Gallup to upgrade infrastructure and enhance the usability and aesthetics of alleyways through pedestrian improvements, while still allowing service access.

Create concept-level ideas to encourage mixed-use development on vacant lots. For example, the BID's conceptual work on various sites within the district and the surrounding areas.

Encourage and support second floor residential developments within the core commercial area of the District.

Support large-scale mixed-use residential development on the fringes of the downtown district.

The LEDA ordinance should be amended to include provisions in support of cultural facilities and retail business development and to accommodate claw-back of unspent resources. *From Gallup Master Plan:* "Update City LEDA ordinance to more directly incentivize Gallup area businesses. Under the Local Economic Development Act (LEDA), the New Mexico Economic Development Department (NMEDD) is granted authority to administer grants to Local Governments to assist expanding or relocating businesses that will stimulate economic development. The City of Gallup should update the LEDA ordinance to incentivize and support current and attract new manufacturing, commercial, or economic base employers to the city."

The Gallup Business Improvement District Board of Directors believes that all of this work is necessary to make Historic Downtown Gallup a more vibrant commercial district with strong consumer appeal, as well as an excellent place to live and work.

Gallup Business Improvement District Ongoing Programs

Mural Artist Ric Sarracino

Gallup New Deal WPA Art
Virtual Museum Project

ART COLLECTION

Gallup's New Deal art collection consists of over 120 objects created, purchased, or donated from 1933 to 1942 through New Deal federal art programs administered by President Franklin D. Roosevelt to support artists during the Great Depression.

ART EXHIBITS

The Gallup New Deal Art Virtual Museum features three types of exhibits, combining traditional and non-traditional approaches to illuminate academic, creative, and individual understandings.

GALLUP BUSINESS IMPROVEMENT DISTRICT PROVIDED \$7,000. TO GALLUPARTS TO HELP THE COMPLETION OF THE NEW DEAL VIRTUAL ART MUSEUM , AFTER FEDERAL FUNDING FOR THE ARTS WAS SLASHED BY CURRENT FEDERAL GOVERNMENT DEPARTMENTS.

Public New Deal Art Tours will continue monthly in 2026 thanks to sponsorship by McKinley County. Tours will be last Saturdays of the month from January through October at 1:30pm; and will remain free and open to the public.

Downtown Streetliner Project

Gallup BID is working with a local designer/fabricator to create a lighted Streetliner display that will provide a welcoming light illuminating the west side of Downtown Gallup. This project should be completed during early 2026
